USBORNE

Gift tags

You could use this idea to make Christmas cards, too.

Glue on sequins for extra sparkle.

1. Cut a shape like this from thick paper. Punch a hole near the top.

2. Cut a small strip of cardboard. Then, mix white paint with glue.

3. Dip one edge of the strip into the paint and print a line on the tag.

Use a short strip to print branches on a tree.

You could print dots using the corner of the cardboard.

4. Dip the strip into the paint again and print two more lines.

5. Sprinkle the wet paint with glitter, then shake off any excess.

6. Loop some thread or thin ribbon through the hole.
