

Where Do Babies Come From?

A Lift-the-Flap Book from Usborne Publishing
to Answer Every Parent's Most Dreaded Question

"Here is a topic endlessly fascinating to small children, yet potentially tricky for some parents. Explanations are simple yet effective, with child-friendly, age-appropriate language and just the right amount of information."

The Bookseller

Lift-the-Flap First Questions and Answers How Are Babies Made is the perfect book for parents who need a little help answering difficult questions, or who are looking to explain the arrival of a new brother or sister.

This simple but effective lift-the-flap book explains the facts of the life to young children in a way they can understand. Each page has friendly illustrations, simple text and lots of flaps to lift to answer questions about where baby humans and animals come from. Little children can discover how a baby got into mummy's tummy, what daddy penguins do all day, why lots of baby animals are born in the spring and more.

Part of a new series of non-fiction books for very small children to read together with their parents.

Where Do Babies Come From? | Available June 2016 | ISBN: 9781409598824 | £9.99 | Age 3+

Coming November 2016 What is Poo?

Everything little children could ever think of to ask about what happens to the food we eat...
