

SATURDAY ACTIVITIES

Noah wants to take part in the sand-castle competition. Guide him across the beach to where it's taking place, without stepping over anything or getting his feet wet.

Fill in the numbers that are missing from the sequence on the beach huts below.

If each donkey ride lasts 15 minutes, how long before the girl at the back of the line gets a ride?

How much will it cost for these four friends to have three scoops of ice cream each?

Can you spot six snorkels?

Use the clues to help Joe find his brother.
1. He has brown hair...

Draw the winning sand castle.

2. ...his rubber ring matches Joe's...

3. ...and he's not in the water yet.
