\* Unscramble the letters on the balls of light above to see what's being celebrated.

Draw a spectacular firework pattern below.

Spot all these:  
seven shooting stars  
two prowling cats  
a startled owl

Use your pens to fill in this exploding firework.

Finish filling in the windowpanes below so that all four fireworks appear in every row and column.

If there are eleven times as many people watching the fireworks as there are lit windows, how many is that?

Circle five differences between the balcony scenes below.

A B C

Which of the rockets launched from this roof hasn't exploded yet?
