

Rock pool word search

Rock pools are small pools on the seashore where water collects between rocks. Many sea creatures live in the pools. Which one of these creatures *isn't* hidden in the word search?

Shrimp

A small sea creature with a shell, four pairs of legs and long feelers.

Shore crab

A small crab that hunts in rock pools.

Starfish

A sea creature with five 'arms'.

Anemone

Uses its stinging tentacles to catch other animals.

Limpet

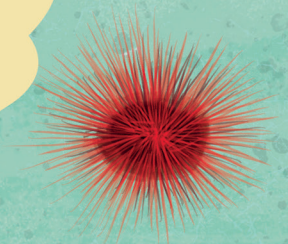

Sea snail with a very hard shell.

Stickleback

Fish with spiny fins on its back.
