

**1** Load a fine brush with black. Paint a line from between the brows along the top of an eyebrow, ending in a point.

**2** Paint a curve over the middle of the nose. Add two more curves slanting down over the cheek. Paint a line up to meet the point over the brow.

**3** Paint the other side of the face to match. Add an almond shape around each eye.

**4** Load a large brush with black. Fill in all the area between the outer shape and the eye shapes. Wait until the paint is completely dry.

**5** Load a fine brush with purple. Dab on the brush point to make dots in two lines from the top points to the each eye, then continuing under each eye.
