

HIKING AND BIKING

Happy hiker

Help the hiker find his way through the forest back to his log cabin.

Brave bikers

Three mountain bikers have just finished a race, but who won? Look at how many points each obstacle is worth, then add up the points along each route. The biker with the fewest points won the race.

-  Mud = 3
-  Fallen tree = 4
-  Jump = -1

Biker won, with points.

Mountain bikes

Fill in these mountain bikes.

Can you spot an abandoned bike somewhere on these two pages?

Triplets puzzle

Triplets Brad, Chad and Tad are setting off on a hike. Spot and draw around one thing that's different about each of them.
