

# ELF HAT

You can pretend to be one of Santa's elves with this green and white paper hat.

It needs to be about 8cm (3 inches) tall.

You could cut out triangle shapes along the top for a zigzag edge.

**1.** Use string to measure around your head, above your ears.

**2.** Cut a strip of thick paper, about 3cm (1 inch) longer than the string.

**3.** Fold the string in half, then cut out a square of thick paper the same length.

**4.** Copy this hat shape and cut it out.

**5.** Draw around a small jar on some paper twice. Cut out both circles.

**6.** Glue down the hat in the middle of the strip. Glue its tip onto one circle and glue the other circle on top.

**7.** Stick the ends of the strip together to make a loop. Now your hat is ready to wear...
