## STICK FIGURE CHARACTERS

All you need to tell a comic strip story are some basic stick people with blob-shaped bodies – just add a few details to turn them into characters.

Here are some examples of stick figure characters.

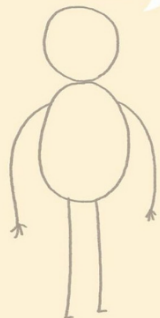

|   |   |   |  |
|---|---|---|--|
| <br>Elf       | <br>Surgeon        | <br>School student | <br>Astronaut |
| <br>Superhero | <br>Police officer | <br>DJ             | <br>Minotaur  |

Here are some accessories you could use to create characters.

Add features, clothes and accessories to turn these stick figures into characters.
