

Monster measuring

Can you match each monster to its cup of tea?

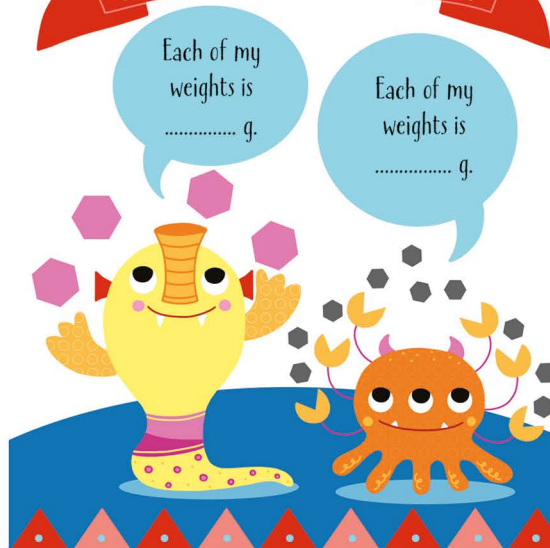

How much tea do the tea monsters drink in total?

You can use this space for working out.

Each monster is juggling a set of weights adding up to 200 g.

Match each thing to the unit you would use to measure it.

grams litres kilograms

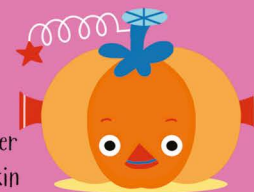

Chilli chocolate

Soup

Monster pumpkin

This monster has used 50 l of water in its bath.

How much water do you think this monster has used?

Fill in the blanks on the signs below, so each monster wakes up on time.

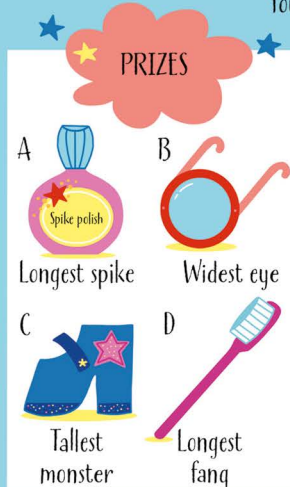

I need to nap for half an hour.

Wake me up in minutes.

I need to nap for three quarters of an hour.

Wake me up in minutes.

Write the correct letter by each monster to award them a prize.
You can use your ruler from page five to help you.
