

You'll never guess HOW FAR FOOD TRAVELS

Investigate food packaging in your cupboards and refrigerator, or when you're shopping, to find out where the contents were grown or made. Write down what you find out in the gaps below...

Type of food

From where?

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

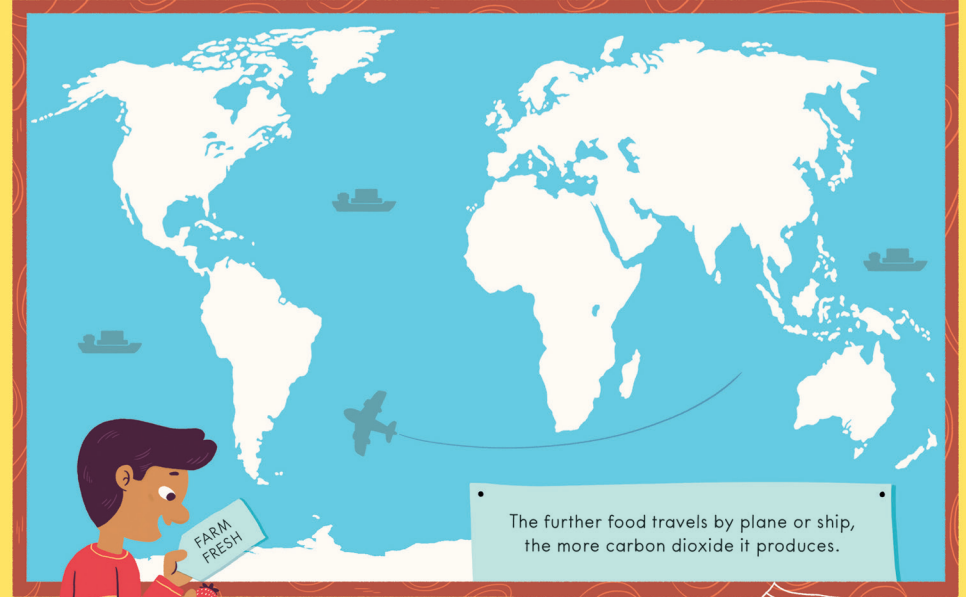

.....

.....

.....

.....

Next, draw an X on this map to show where you live. Then add dots roughly on top of the countries that produced the food you found. Use an atlas or an online map to help you.

Now answer these questions...

1 How many items came from the country where you live?

.....

2 Which item was grown or made nearest to your home?

.....

3 Can you work out which item came from furthest away?

.....
