

SATURDAY ACTIVITIES

▶ Watery rainbow

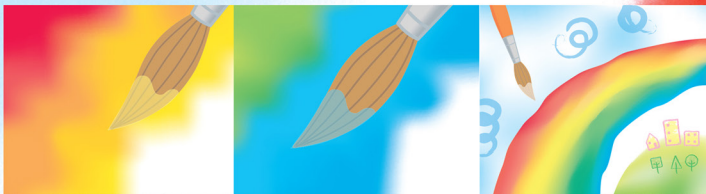

The rainbow on the previous page was made by mixing coloured dots. You can also make one by mixing runny paints.

1. Draw a row of houses and trees in crayon.

2. Brush clean water all over your paper.

3. Make some runny red, yellow and blue paint.

4. Paint curved lines of red and yellow in the sky.

5. Let the paint run together. Add a blue line.

6. Fill the rest of the sky with splodges of blue.
