

In the south of France, where Van Gogh made the painting below, there were many fields filled with sunflowers. Can you finish drawing this sunny sunflower field?

Add swirls of blue to the sky and a yellow sun.

Beautiful blooms

This is one of a series of sunflower pictures Vincent van Gogh painted to decorate a room for a friend. Almost everything is yellow, which for Van Gogh was the colour of happiness.

Sunflowers
by Vincent van Gogh, 1888

Can you spot...

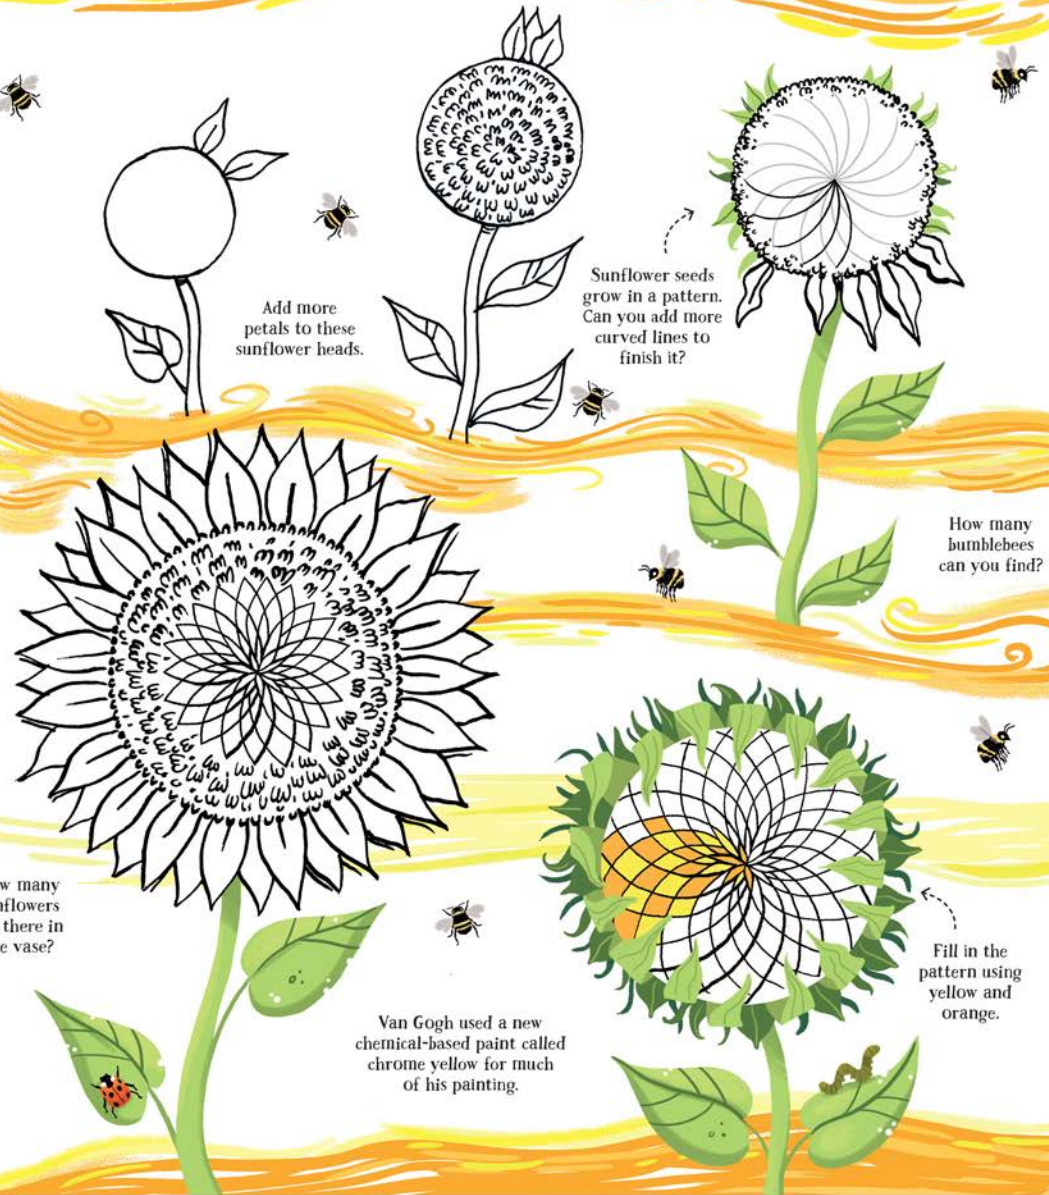

the artist's signature

this fully open sunflower

a sunflower losing its petals

Add more petals to these sunflower heads.

Sunflower seeds grow in a pattern. Can you add more curved lines to finish it?

How many bumblebees can you find?

How many sunflowers are there in the vase?

Van Gogh used a new chemical-based paint called chrome yellow for much of his painting.

Fill in the pattern using yellow and orange.
