

HAVE FUN WHEN LEAVES FALL

As leaves start to tumble from the trees and carpet the ground, it's time to give these activities a try.

CATCH!

On a blustery day in a park or woods, you might see lots of leaves falling. Try to catch as many of them as you can before they hit the ground.

LEAF CONFETTI

Scoop up lots of leaves with your hands. Then ask someone to take a photo as you throw the leaves into the air.

SHIFTING SHADES

Search for a rainbow of leaves. Arrange them from deep red, via orange and yellow, to green.

FIND THREE

Race someone to find three leaves the same shade and shape.

Worms and other creatures that eat leaves and other parts of plants or dead animals are known as **DETRITIVORES**.
