

Billy and the Mini Monsters

Make your own Mini Monster puppet

1. Cut carefully around the dotted lines
2. Tape or glue a lolly stick to the back of your puppet. If you don't have any lolly sticks at home, you can use a drinking straw, a twig or you can just tape the monster to your finger.
3. Play with your puppet! You could crouch under a table and hold up your puppet so that it sticks up from behind. Make it move and talk.

Peep

Trumpet

Fang Face

Gloop
