

Find the ten-letter word below, moving along the blue lines from one letter to the next and using each letter only once.

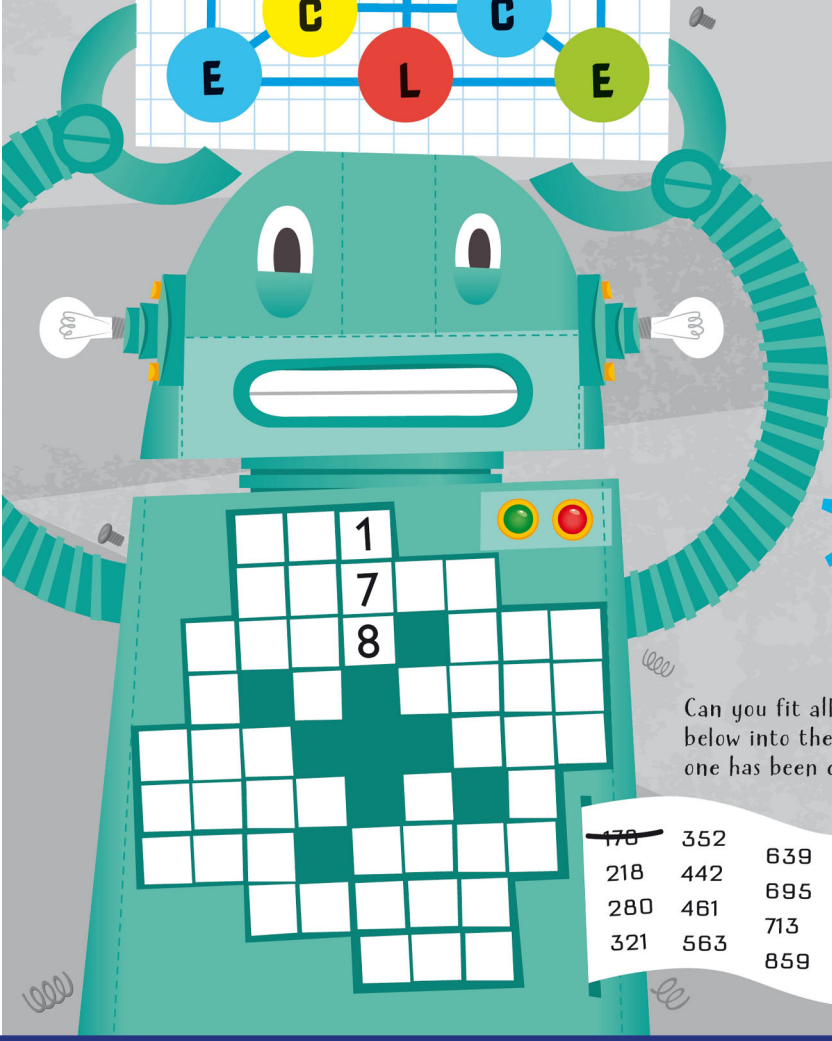

CAN YOU SPOT?

- A red light
- Six lost bolts
- Nine springs
- A puddle of oil

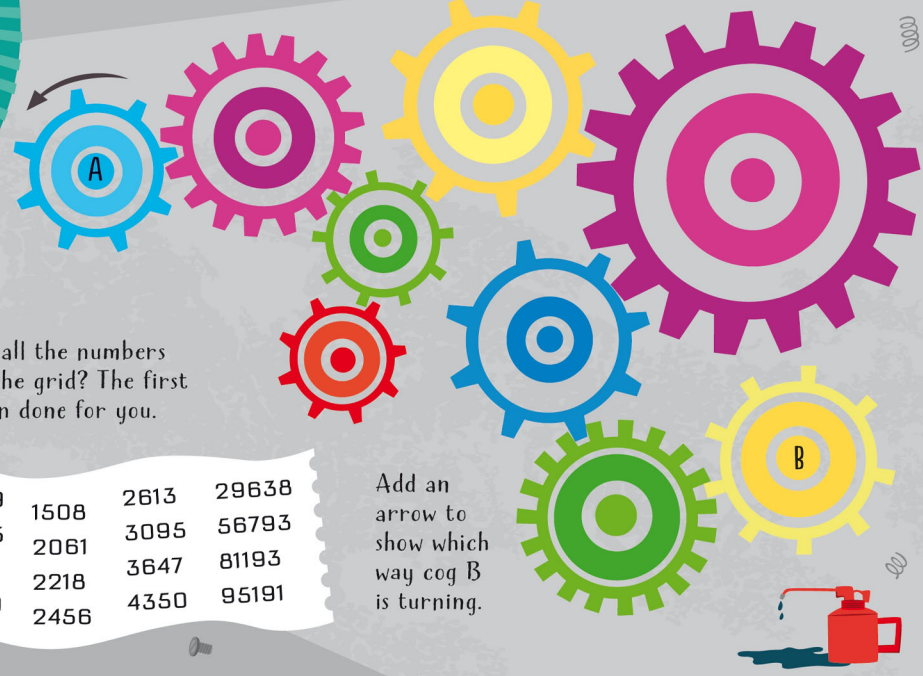

Only two robots are exactly alike. Draw around them.

Can you fit all the numbers below into the grid? The first one has been done for you.

178	352	639	1508	2613	29638
218	442	695	2061	3095	56793
280	461	713	2218	3647	81193
321	563	859	2456	4350	95191

Add an arrow to show which way cog B is turning.
