

Sculpture park

Some sculptures, whether carved from stone or created out of other natural materials found in the landscape, are made to be seen outdoors.

Some artists work with natural materials like rocks and stones to create their sculptures. Keep adding stones to these towers.

The sculptures on this side don't look *exactly* like animals, but they are made to capture the feel and movement of living things. Can you add the right statue numbers to the sign?

- Doves (Group) Barbara Hepworth, 1927
- Sheep Piece Henry Moore, 1971-2
- The Horse Pierre-Maurice-Raymond Duchamp-Villon, 1914

Add your own statue to this stand.

The pattern on this sculpture is like a maze. Can you find a way to the middle?

Some outdoor art is made of things, such as leaves, that won't last. Colour the leaves following the key, to reveal a pattern.

 numbers that divide by 2

 numbers that divide by 3

 numbers that divide by 5
