

Design a New Book Cover!

Choose a book you've read and imagine you've been asked to create a brand-new cover for it. Your cover should make someone want to pick it up without giving too much away.

Choose your book

Book title: _____

Author: _____

Think like a book designer

Before you start designing, jot down some ideas;

What is the book about? _____

What mood should your cover create? _____

What is one important object, place or symbol from the book? _____

Which colours would suit the story? _____

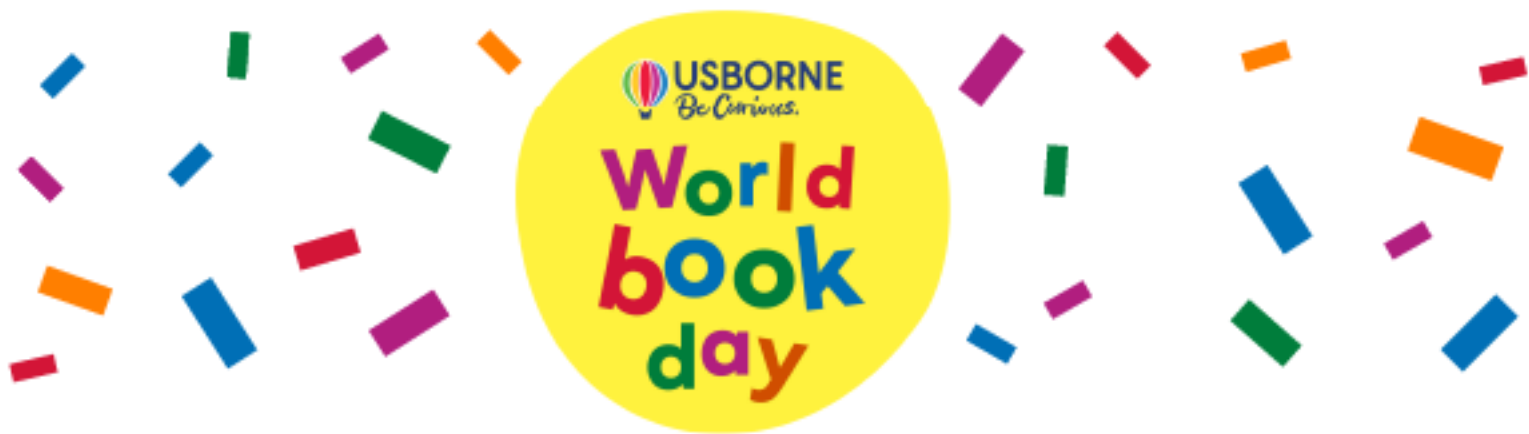

Who do you think would enjoy this book? _____

Your cover challenge

Try to include:

- The book title
- The author's name
- An illustration or design inspired by the story
- Colours and lettering that match the book's mood
- Something that makes readers curious

Designer tip: You don't have to show exactly what happens in the story. Sometimes the best covers give readers just enough of a clue to make them wonder what's inside.

Design a New Book Cover!

A large, empty rectangular box with a yellow border, intended for children to draw and design their own book cover.
