

Make the most of your Author event

What better way to bring a book to life than with a visit from the author? With a wide range of authors available to lead fully planned sessions, we have events to engage learners from KS1–KS5.

Covering a wide range of topics through workshops, assemblies, readings and more — there's something to engage every student with an Usborne author event.

1

Tie it in with your topics

History, geography, creative writing and PSHE are just some of the subjects covered in author events. Why not use an event to compliment your curriculum and tie it into a termly topic?

2

Prepare key questions in advance

The real stars of any school event are your students. Prepare questions ahead of time to spark their curiosity and make the moment even more memorable.

3

Extend the fun with a project

Exploring the environment and oceans, looking at life cycles, the human body, and nature, writing about marvellous mysteries, navigating friendships and being kind. Inspire learners beyond the event itself.

4

Get your very own copy of the book

Reading the book as a class is a great way to make the most of an author visit. With a host of free downloadable [lesson resources and activities](#) on the Usborne website there are also lots of ways to keep them busy.

5

Share the highlights

Whether pinning to a display wall, a social media wall, or inviting the local paper along, there's lots you can do to share the excitement with your wider school community.

To explore the full range of fully planned World Book Day events on offer with us, and discover FREE books for your school, contact your local Independent Usborne Partner [here](#).
