

GIFT TAGS

You can make gift tags to label presents. It's best to write messages on the tags before you attach them with tape.

1. Draw circles, triangles or other shapes onto thick paper, then cut them out.

2. Make a hole in each shape using a hole punch. Push thread through the hole and tie a knot.

3. Now it's time to decorate them!

Make round tags by drawing around a cup.

To add a polar bear, tear a shape from white paper for its head. Glue it on, then draw its face and ears.

Dot snowy white paint on a triangular tag.

You could make a pair of tags shaped like mittens.

For a tree tag, stick on three overlapping green triangles. Paint on decorations.
