That's my pumpkin

Finish your
pumpkin.

Can you see the little white mouse?

Fill in the
faces to make
them glow.

Find a **WHITE**
spiderweb.

Which pumpkin
has a **PURPLE** hat?

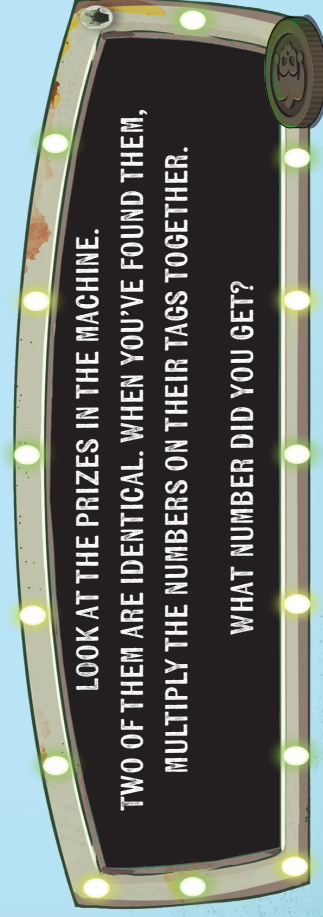

You stand in front of the machines and study the prizes. Plush toys are stacked in loose piles and wedged at odd angles. Some look one nudge away from falling into the chute; others look buried and impossible to get a hold of.

A plan forms in your head. Which one sits near the edge, which one looks easy to grip. But knowing this place, you doubt it's as easy as that.

A red START button flashes beside the joystick.

You press it.

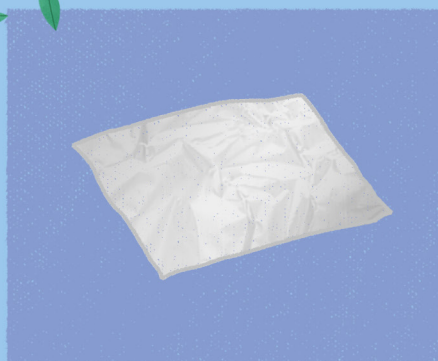

The bright light inside turns a sickly green and the claw jerks, then glides to its starting spot with a mechanical *clunk*.

- 1** Use a pencil to make a hole in the middle of the tissue.

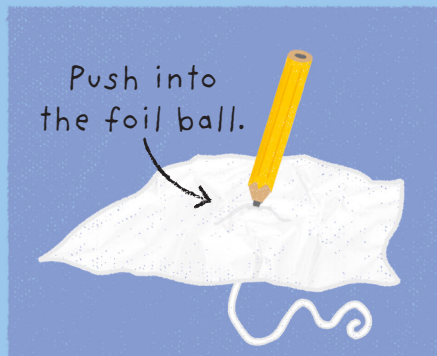

- 2** Glue the end of a long piece of string in the middle like this.

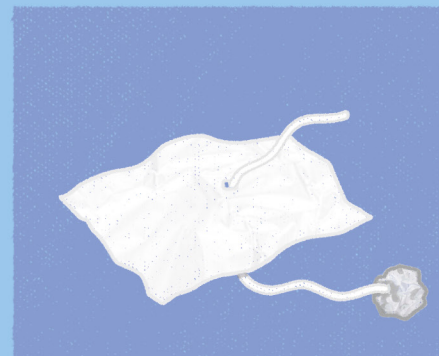

- 3** Scrunch the foil around the string.

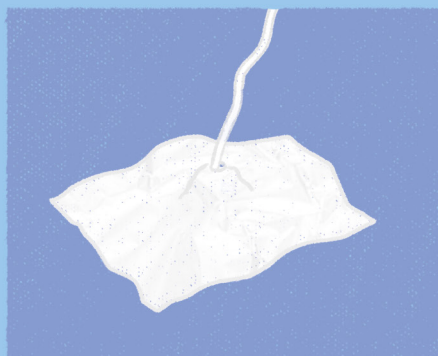

- 4** Place a tissue over the foil ball.

- 5** Use a pencil to make a hole in the middle of the tissue.

- 6** Push the other end of the string through the hole.

- 7** Pull the string until the ball touches the tissue.

- 8** Squeeze the tissue around the foil ball.

- 9** Draw on a face.

- 10** Hang up your ghost and watch it sway spookily in the breeze.

Give your ghost any face you like.

Monster laboratory

Dr. Morphose has lost four of the flux fuses for his resurrection machine. Lead him through the lab to find the fuses and fit them into their slots, without retracing his route, so he can bring his latest monster to life.
